

VIKAS KUMAR THAKUR

FRONT-END DEVELOPER

Seeking a challenging position as a Front-End Developer with a passion for creating engaging web and mobile interfaces. I possess a blend of design and technical skills that enable me to create user-friendly experiences. I excel in dynamic and innovative team environments.

EXPERIENCE

Mindrops Solutions Pvt. Ltd.

DEC 2022 - APR 2024

Software Engineer

Pitampura, Delhi

- Developed and implemented new Front-End designs and Web Application **architectures from scratch** using technologies like **ReactJS**, **NextJS** and **Angular**. Experienced in creating responsive **SaaS apps**, **websites**, and **UIs**, optimizing for SEO and collaborating across teams for scalable UI systems.
- Worked on Building reusable **component-based UIs**.
- Extensive experience in developing **email templates** for diverse scenarios.

EdiQue Solutions Private Limited

NOV 2019 - AUG 2022

ICT Instructor

Garhwa, Jharkhand

- As an ICT Instructor, I instructed advanced **web development** teaching methods, enriching the curriculum to enhance student's **coding skills** in an engaging environment. I curated diverse projects, hosted technical competitions, and provided personalized guidance, refining strategies for optimal learning outcomes and satisfaction.

PROJECTS

Woodcrrests - Scratchcard Reward Project

- Developed a complete UI for the client-side website, ensuring an intuitive and user-friendly experience with **React Js** and **Tailwind CSS**.
- Implementation of a **scratch card** using **Canvas**.
- Developed distinct **email templates** for the scratch card and mega jackpot products.

Chedular - Appointment Scheduling Application

- Developed intuitive client-side complete website and admin dashboard with **Angular/TypeScript** and **Bootstrap**.
- Optimized frontend performance, ensuring **responsiveness** and resolving **UI issues** for a seamless user experience. Stayed updated with trends, applying best practices for robust, maintainable code.
- Developed responsive layouts, adhering to mobile-first design principles for a **seamless experience** on desktop and mobile platforms

LazyMonkey - QR Based Customer Feedback System

- Developed LazyMonkey website with user-friendly interface, visual appeal, easy navigation, and **cross-platform compatibility**, including a responsive **dashboard** for admin side with **JQuery** and **Tailwind CSS**.
- Developed specialized **email templates** for LazyMonkey tenants and clients, as well as a concise **daily email report template** to streamline communication and deliver key insights effectively.
