## EDUCATION

---

- **Jaipur National University** Jaipur  
*Master of Computer Applications; Percentage: 68.7%* Sep. 2017 – Oct. 2019
- **GLA College** Medininagar  
*Bachelor of Computer Applications; Percentage: 74.6%* July. 2014 – Aug. 2017

## EXPERIENCE

---

- **Mindrops Solutions Private Limited** NSP, New Delhi  
*Software Engineer* Dec 2022 - Present
  - Experienced Frontend Developer adept at developing responsive **SaaS web applications**, websites and components ensuring seamless experiences across devices. Collaborates with design and backend teams to maintain scalable UI systems, conducts user research, and applies data visualization for iterative enhancements. Boosts SEO with meta tags, schema markup, and optimizations like lazy loading, resulting in faster load times and improved organic traffic.
  - Proficient in Angular, React, Vue.js, and other **JavaScript frameworks** for developing components and interfaces.
- **EdiQue Solutions Private Limited** Garhwa, Jharkhand  
*ICT Instructor* Nov 2019 - Aug 2022
  - As an ICT Instructor, I implemented innovative instruction methods for **web development** with dynamic curriculum content to boost students' ICT proficiency within a stimulating learning environment. I orchestrated technical events, offered mentorship, and refined strategies based on feedback to optimize learning outcomes and student satisfaction.

## PROJECTS

---

- **Chedular - Appointment Scheduling Application (SaaS):**
  - Developed intuitive client-side complete website and admin dashboard UI with Angular/TypeScript.
  - Expanded application reach by adding **Dutch language** (NL) support through translation for a localized and inclusive user experience.
  - Optimized frontend performance, ensuring responsiveness and resolving UI issues for a seamless user experience. Stayed updated with trends, applying best practices for robust, maintainable code.
  - Developed **responsive layouts**, adhering to mobile-first design principles for a seamless experience on desktop and mobile platforms.
- **LazyMonkey - QR Based Customer Feedback System (SaaS):**
  - Developed LazyMonkey website with user-friendly interface, visual appeal, easy navigation, and cross-platform compatibility, including a responsive dashboard UI for admin side.
  - Developed specialized **email templates** for LazyMonkey tenants and clients, as well as a concise daily email report template to streamline communication and deliver key insights effectively.
- **Woodcrrests - Scratchcard Reward Project:**
  - Developed a complete front-end UI for the client-side website, ensuring an intuitive and user-friendly experience.
  - Implementation of a scratch card UI using Canvas. This feature allows users to reveal gift items by scratching the card.
  - Developed distinct email templates for the scratch card and mega jackpot products.
- **Static Websites:**
  - I possess experience in creating multiple static websites featuring contemporary UI designs.
